contrary to popular belief the medieval religious imagination did not restrict itself to masculine images of god but envisaged the divine in multiple forms in fact the god of medieval christendom was the father of only one son but many daughters including lady philosophy lady love dame nature and eternal wisdom god and the goddesses is a study in medieval imaginative theology examining the numerous daughters of god who appear in allegorical poems theological fictions and the visions of holy women we have tended to understand these deities as mere personifications and poetic figures but that barbara newman contends is a mistake these goddesses are neither pagan survivals nor versions of the great goddess constructed in archetypal psychology but distinctive creations of the christian imagination as emanations of the divine mediators between god and the cosmos embodied universals and ravishing objects of identification and desire medieval goddesses transformed and deepened christendom's concept of god introducing religious possibilities beyond the ambit of scholastic theology and bringing them to vibrant imaginative life building a bridge between secular and religious conceptions of allegorized female power newman advances such questions as whether medieval writers believed in their goddesses and if so in what manner she investigates whether the personifications encountered in poetic fictions can be distinguished from those that appear in religious visions and questions how medieval writers reconcile their statements about the multiple daughters of god with orthodox devotion to the son of god furthermore she examines why forms of feminine god talk that strike many christians today as subversive or heretical did not threaten medieval churchmen weaving together such disparate texts as the writings of latin and vernacular poets medieval schoolmen liturgists and male and female mystics and visionaries god and the goddesses is a direct challenge to modern theologians to reconsider the role of goddesses in the christian tradition

an introduction to the gods goddesses and religion of ancient greece

the myth of the goddess is the oldest myth we know the evolution of that myth tells the story of how our understanding of ourselves as we have achieved it through the images of our goddesses and gods has developed over the millennia of human history yet today the goddess seems to have disappeared and only the god remains but it has not always been so in this definitive and powerfully argued study scholarly yet accessible jules cashford and anne baring draw upon art and mythology poetry and literature archaeology and psychology to show how the myth of the goddess has been lost from our formal judaeo christian images of the divine they explain what happened to the goddess when and how she was excluded and the implications to us of this loss they trace the image of the great mother goddess of the palaeolithic and neolithic times through the bronze and iron ages to the virgin mary queen of heaven they show how the god separated from the originally androgynous goddess and eventually came to stand alone as the creator of the world but the goddess however devalued and debased did not go away the image of the universe as an organic living and sacred whole which is the essence of the goddess myth could not be eradicated and went underground this leaves an imbalance in the masculine and feminine images of the psyche the authors argue that successive patterns of myth legend and history demonstrate the importance of bringing the feminine and masculine images into harmony with each other which is only possible when both are acknowledged in earlier times the sacred marriage of goddess and god symbolized this harmony inanna and dumuzi in sumeria ishtar and tammuz in babylonia isis and osiris in egypt cybele and attis in anatolia aphrodite and adonis in greece and in the language of the image but not the doctrine mary and jesus in christianity the parallels and similarities in all the goddess myths are so striking that they suggest a continuous tradition of images throughout history today the goddess is re emerging in the surprising guise of new science which offers a vision of the universe as a living whole that can only be understood as a unity and the scientists express themselves in images that belong to the old goddess myth this book s detailed evocation description and analysis of the stories and images of humanity will surely help to restore the myth of the goddess to our consciousness book jacket title summary field provided by blackwell north
